WEIBANG®

ALUMINIUM DECK

The high performance aluminium deck is designed for optimum airflow to ensure high collection performance in all conditions, the deck also features a 25 year guarantee.

VCT - LOW VIBRATION ENGINE TECHNOLOGY

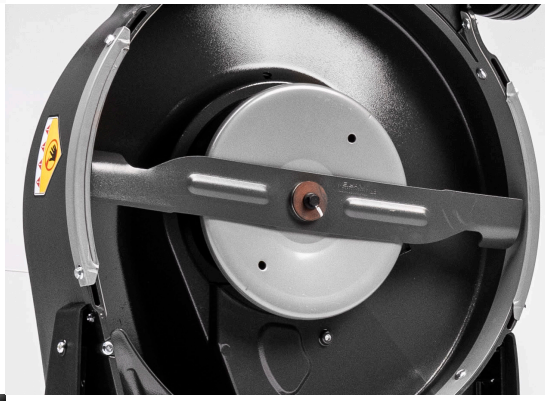

We made an exclusive partnership with Loncin to create the new XCV Series engines, with VCT and cast iron liner. Suitable for all day use before reaching ELV.

PROFESSIONAL GEARBOX

The Legacy features our PRO 3 speed gearbox, offering the ultimate in performance and reliability for the professional. Engineered to the highest standards with 3 solid gears and a 3 year commercial warranty.

CRANK PROTECTION

The CPS (Crank Protection System) feature means the blade is mounted via a friction disc to avoid damage to the crankshaft in the event of hitting an obstacle. (excludes BBC model)

STEEL SPLIT REAR ROLLER

The innovative split steel rear roller features an industrial grade ratchet which is vacuum sealed to protect against the elements.

EASY STORAGE & MAINTENANCE

The height adjustable handles can fully fold and lock for storage, or an upright maintenance position for access to the underside of the deck.
